Career summary

Software Engineer with 3+ years of experience in application support, DevOps operations, and full-stack development within BFSI and enterprise environments. Skilled in managing large-scale application servers, CI/CD pipelines, and production systems using Jenkins, Git, Unix, and monitoring tools. Strong background in cloud computing, SQL/PLSQL, backend systems, AWS services, and REST APIs, with experience supporting high-availability systems for global clients including State Street Bank and Transamerica. Currently pursuing a Master's in Computer Science with a focus on cloud, security, and scalable systems.

Professional experience

PRODUCT SOFTWARE DEVELOPER

NOV 2021 – JUL 2024

Tata Consultancy Services | Kolkata, India

Product Developer at Tata Consultancy Services (TCS), a global IT services and consulting company, supporting enterprise BFSI applications for international banking and insurance clients with hands-on experience supporting enterprise BFSI applications, focusing on DevOps operations, production stability, and large-scale application server management.

- Worked in the BFSI domain supporting enterprise applications for global clients including Transamerica and State Street Bank & Trust.
- Configured, deployed, and supported 55+ application servers, handling live code deployments, fixes, and configuration management.
- Utilized tools such as Jenkins, Git, Unix/Linux, SonarQube, and Glowroot for CI/CD, version control, code quality, and performance monitoring.
- Supported large-scale applications and performed database-related tasks, including executing and maintaining SQL/PL/SQL queries.

BUSINESS DEVELOPMENT ASSOCIATE

AUG 2021 – SEP 2021

Career Labs | Bangalore, India

Business Development Associate responsible for supporting sales and marketing initiatives, lead generation, and market outreach through direct communication and collaborative sales strategies.

- Collaborated with team members on sales initiatives, contributing to innovative outreach strategies and client engagement. Communicated with marketing teams on a regular basis via weekly emails, monthly phone conversations, and quarterly meetings.
- Conducted cold calling and cold emailing campaigns to generate leads and support business market development efforts. Applied business management skills to organize sales activities, track leads, and support decision-making for growth initiatives.

IT INTERN TRAINEE

JAN 2021 – APRIL 2021

AKA Logistics | Kolkata, India

IT Intern Trainee supporting hardware, networking, and IT infrastructure operations to ensure reliable system and network performance.

- Worked with routers, hubs, and firewalls to support network connectivity and basic security requirements.
- Provided IT support for hardware and networking systems, assisting with setup, configuration, and troubleshooting. Assisted in maintaining IT infrastructure and resolving technical issues.

INTERN NETWORK ENGINEER

APRIL 2019 – JUN 2019

VSS International | Kolkata, India

Intern supporting end-to-end hardware and software configuration, including system setup from scratch and initial IT environment deployment.
